Travel insurance

1. Who is covered

Cardholder and family members

The insurance covers the holder of a valid* Mastercard Platin Private Banking card issued by Danske Bank in Denmark.

The insurance also covers

- your spouse
- your cohabiting partner (must live at the same address as you do)
- children, joint-custody children and foster children under the age of 24 living at home
- children under the age of 18 who do not live at home
- grandchildren under the age of 18

The insurance covers the persons described in this section. Any reference to 'you' in these terms and conditions means all the persons covered by the insurance.

You are covered if you travel together

The cardholder and the persons co-insured with the cardholder must travel on the same means of transport on both the outbound and the return journey. Otherwise, co-insured persons will not be covered until they join the cardholder at the destination.

Especially for children living at home

Children under the age of 18 living at home are covered by the insurance when travelling without the cardholder, for example on a study trip with their school.

If you live abroad

You are also covered by the insurance if you live abroad.

Mastercard Platinum Private Banking Family card

Holders of a Mastercard Platinum Private Banking Family card are covered in the same way as the holder of the main card. This also applies if the holder of the Family card does not travel with the holder of the main card.

2. When does the insurance provide cover

The insurance covers

- private holiday travel, study trips, business trips and trips involving unpaid voluntary work
- travel anywhere in the world for up to 60 days
- if the trip lasts longer than 60 days, the insurance covers the first 60 days
- travel within your country of residence, minimum of three nights

The insurance provides cover from the time you leave your place of residence or place of work (whichever happens last) to begin your trip and until you return to your place of residence or place of work (whichever happens first).

3. Term and termination

The insurance covers travel for up to 60 days, as long as you have a valid* Mastercard Platinum Private Banking card issued by Danske Bank.

However, the insurance is automatically extended beyond the 60 days if, through no fault of your own, you are to remain at your destination* due to illness or are detained indefinitely by a public authority.

If your return journey is delayed for reasons other than those mentioned above, for example as a result of a flight delay, we automatically extend the insurance by 48 hours.

When does cover end

Cover ends when you terminate your Mastercard Platinum Private Banking agreement. This also applies if we terminate the card agreement because you do not comply with the rules. It is your status in Danske Bank's systems at the time of the claim that determines whether you are covered.

If you and your spouse/cohabiting partner separate

In the event of separation and divorce, your spouse/cohabiting partner and his or her own children will no longer be covered by the insurance.

4. Prior approval of pre-existing condition

If you have a chronic condition, have symptoms of other conditions or receive a diagnosis before you travel from your country of residence, you are covered only if the condition is stable. This means that within the last two months before your departure you have not

- been hospitalised
- changed your medication
- received treatment by a physician, although you may go in for check-ups
- scheduled further examinations, treatment or hospitalisation

If your condition is not stable, you must obtain a medical opinion immediately prior to your departure which may not contain any indication that your condition may deteriorate during the trip.

5. Remember to bring your blue European health insurance card

The blue European health insurance card is proof that you have healthcare insurance in accordance with EU rules and are entitled to state-provided medical treatment in EU/EEA countries* and Switzerland.

Take the online test

If you need prior medical approval, you must start by taking the online test at Danske Bank's website.

The test gives you quick answers to questions about how you are covered in the event of illness or injury while travelling, or whether we need to talk to you before we can make a final decision.

Prior approval is valid for one trip

The prior approval is valid for the forthcoming trip only. You should therefore consider whether you need to take the online test again the next time you are going on a trip.

6. If you need to use your insurance

If you need urgent assistance while travelling

Call Tryg Alarm immediately on +45 45 12 91 00. We can help you find a hospital or arrange repatriation and are open 24 hours a day.

All treatment and transport needed if you become acutely ill or are injured while travelling are subject to agreement with Tryg Alarm.

If you experience other incidents while travelling

If you experience other incidents while travelling such as delayed flights or luggage, you should report the claim only when you get home.

Reporting a claim

You can report a claim at [danskebank.dk](https://www.danskebank.dk). You can also report a claim on tel. +45 45 12 91 00.

Documentation

You must obtain the necessary documentation to support your claim, documenting both what has happened and the expenses you have incurred. Under each type of cover, we have described what kind of documentation you must be able to provide.

Reimbursement of transport expenses

If your transport or return home is not arranged by Tryg, we will reimburse a maximum amount corresponding to the expenses we would have incurred had we arranged your transport or return home.

7. General exclusions

The insurance does not cover insured events, regardless of your state of mind or mental capacity, due directly or indirectly to

- deliberate, criminal or grossly negligent* acts or omissions.
- participation in fights, self-induced intoxication, self-induced influence of narcotics and other intoxicants or consumption of medication.

In addition, the insurance does not cover insured events due directly or indirectly to

- travel to a country affected by war, warlike situations, violation of neutrality, civil war, riot or civil unrest. If one of these situations arises suddenly and after you have entered the country, you may remain there for up to 30 days after the outbreak of the conflict. However, cover is subject to you not participating personally in the actions.
- confiscation, nationalisation or revolution.
- nuclear reactions and radioactive decay, regardless of whether the insured event occurs in times of war or peace.

However, the insurance covers insured events caused by or occurring in connection with nuclear reactions used for ordinary industrial, medical or scientific purposes.

- civil unrest, lockout or blockades.
- an actual or threatened strike announced more than 24 hours before your time of departure.
- arrest, seizure or other intervention such as new laws, regulations and guidelines issued by a public authority.

The insurance does not provide cover during

- flights where you are part of the flight crew
- participation in expeditions to polar regions and unexplored locations
- participation in motor races of any kind
- participation in professional sports*. However, we do cover transport to and from the destination as well as during the stay to the extent that you are staying at the destination as a private individual.

8. Illness and injury

The insurance covers

The insurance covers the following expenses if you become acutely ill or are injured while travelling:

- Your own share of the cost of treatment under the EU healthcare system (blue European health insurance card)
- Medical treatment
- Hospitalisation and treatment, including surgery
- Medication and treatment prescribed by a physician
- Necessary additional expenses for hotel accommodation and meals during an extraordinary stay prescribed by a physician
- Ambulance transport or local transport to the nearest hospital or physician and back to your accommodation
- Transport prescribed by a physician to the nearest suitable treatment location
- Catching up on your itinerary when the planned itinerary cannot be followed because you are prescribed a stay in hospital or a hotel by a physician

Dental treatment

The insurance covers treatment of acute dental emergencies or tooth damage caused by chewing. The tooth damage must be demonstrably caused by a foreign object in your food. Tryg may demand that you send us the object.

Repatriation due to acute illness or injury

The insurance covers reasonable and necessary expenses for repatriation of the insured to the insured's country of residence* if prescribed and approved by Tryg's physician.

The insurance also covers transport to the insured's country of residence* when the planned itinerary cannot be followed because the insured is prescribed a stay in hospital or a hotel by a physician.

Repatriation due to death

The insurance covers reasonable and necessary expenses for repatriation of the insured to the insured's country of residence*, including expenses for statutory measures such as embalming, undertaker, transport of the deceased to an undertaker in the country of residence and transport coffin costs.

The insurance does not cover

The insurance does not cover expenses for

- non-acute illness and injury
- stays in rehabilitation or health resorts
- continued treatment if you refuse to be repatriated when both Tryg Alarm's physician and the treating physician have decided that repatriation is required
- treatment upon your return to your country of residence*
- treatment of illness or injury if you travel abroad again after repatriation and this was not agreed in writing with Tryg
- dental treatment if you have not had regular dental checks and treatment by a dentist based on national clinical guidelines (green, yellow, red)

Compensation

The insurance covers reasonable and necessary expenses for the treatment of illness and injury sustained while travelling.

Dental treatment costs of up to DKK 30,000 per person are covered.

The dental treatment must have been begun abroad, but if necessary, be completed in your country of residence* if necessary.

9. Urgent return home

The insurance covers

The insurance provides cover if you need to urgently return home due to

- death or hospitalisation of any of the following persons as a result of a serious accident or sudden serious illness:
 - Your spouse/cohabiting partner
 - Your children, grandchildren and children-in-law
 - Your parents, parents' long-term cohabiting partner, grandparents and in-laws
 - Siblings, brothers-in-law, sisters-in-law and their children
- fire* or burglary* in your home or a business you own if the incident has been reported to the police and your presence is required
- fraudulent acts by an employee of a business you own if the incident has been reported to the police and your presence is required
- a strike in breach of a collective agreement in a business you own

Urgent return home by travel companion

The insurance also provides cover if your travel companion needs to urgently return home for any of the reasons mentioned and this means that you have to continue the journey alone ('alone' means that you as the only adult will continue the journey with any children under the age of 18).

The insurance does not cover

The insurance does not provide cover if the incident that led to the urgent return home occurred prior to your departure.

Compensation

The insurance covers reasonable and necessary transport expenses, if possible in the same travel class as on the originally planned trip. If you have not booked a return journey, the insurance covers the cost of travel in the same travel class as on the outbound journey.

Documentation

You must be able to document any additional expenses in the form of a statement from a local treating physician/dentist, copies of prescriptions, a death certificate and original receipts.

Who can travel home

You and the people co-insured with you can cut short your trip if you travel home together. If your next of kin are in a country other than your country of residence*, and the cost of a travel ticket to this country does not exceed the price of a travel ticket to your country of residence*, the insurance may, subject to agreement with Tryg Alarm, instead cover the cost of travel to this country.

Travelling by car or motorcycle

If you travel by car or motorcycle, you may use other means of transport for the journey home subject to agreement with us. In such cases, the insurance also covers the cost of transporting the car or motorcycle home (see section 25).

Return journey

If you resume your trip, reasonable and necessary additional expenses for the return journey are covered, provided that you resume your trip within seven days of the end of the travel period*.

Documentation

After your return home, you must send us the original receipts for your additional expenses, medical report, death certificate or report to the police/rescue service.

10. Patient accompaniment

The insurance covers

The insurance covers patient accompaniment if you are hospitalised, repatriated or prescribed a stay in a hotel by a physician due to acute illness*, injury or death, and your planned itinerary is therefore interrupted or delayed.

The insurance does not cover

The insurance does not cover expenses for

- patient accompaniment after returning to your country of residence*
- patient accompaniment of more than one person over the age of 18 if you invoke the summoning cover

Compensation

The insurance covers reasonable and necessary additional transport expenses, including local transport, hotel accommodation and meals for up to 14 days.

In addition, the insurance covers reasonable and necessary transport expenses for the purpose of

- resuming the planned itinerary according to the original travel schedule after hospitalisation or a hotel stay prescribed by a physician
- resuming the patient companion's planned itinerary when the patient companion has accompanied the insured to the insured's country of residence*

It is a condition that the trip is resumed within seven days of completion of the accompaniment.

Repatriation and transport needed to catch up on a planned itinerary may, if possible, be in the same travel class as the originally planned transport.

Who are accepted as patient companions

The insurance covers the costs of two companions covered by the insurance or one person of your choice. If you travel with children under the age of 18, they are always covered.

Documentation

After your return home, you must send us the original receipts for your additional expenses, medical report or death certificate.

11. Summoning a person from home

The insurance covers

The insurance covers summoning a person from home if you become acutely ill or are seriously injured and Tryg Alarm finds that you need to stay in hospital for more than three days.

The insurance covers in the same way if a person covered by the insurance dies while travelling.

The insurance does not cover

The insurance does not cover expenses for summoning a person from home if

- it has been decided that you need to be repatriated within three days
- you are 18 years of age or older and invoke the patient accompaniment cover

Compensation

The insurance covers reasonable and necessary expenses for transport, hotel accommodation and meals for up to 14 days.

You may summon

- two persons of your choice if you do not invoke the patient accompaniment cover or
- one person of your choice if you invoke the patient accompaniment cover for one person co-insured with you aged 18 years or over

Documentation

After your return home, you must send us the original receipts for your additional expenses, medical report or death certificate.

12. Replacement trip and ruined days of travel

The insurance covers

The insurance covers either the cost of a replacement trip or provides compensation per ruined day of travel of up to DKK 25,000 per person and a maximum of DKK 100,000 per trip.

The insurance does not cover

The insurance never provides cover beyond the original travel period*.

In the event of death, we do not calculate and pay compensation to the deceased. This applies despite any prior period of illness.

Compensation

The compensation is calculated on the basis of documented accommodation and transport expenses during your trip that cannot be reimbursed elsewhere.

We count the days of departure and return as two full days, regardless of the time of travel.

Expenses for excursions, events or activities such as rented ski equipment, instruction and lift tickets are also covered if they have been paid for in advance and you cannot participate in them due to your illness or injury.

Travel in your own car

If you travel in your own car, we set a price per kilometre taking the shortest route from your place of residence* to your destination and back again. The amount is calculated on the basis of the Danish state's rate for business travel over 20,000 km per year.

This also applies if you have rented a car or a camper van. In this case, we also cover prepaid rental costs.

Driving at your destination is not included in the price of the trip.

Proportionate compensation

We distribute the compensation proportionately on the basis of the number of insured persons and how much of the travel period* we have to cover.

Documentation

When you report a claim, you must send us the medical report, proof of travel, documentation for the duration of your trip and the original invoices for expenses for transport, accommodation, excursions and events.

12.1 Replacement trip

The insurance covers

The insurance covers a replacement trip for you and co-insured persons travelling with you

- if you are hospitalised for more than half the travel period* due to acute illness* or injury
- if you are repatriated during the first half of the travel period* and do not resume your journey
- if you are summoned home during the first half of the travel period* and do not resume your journey
- if you are evacuated during the first half of the travel period*, but not if you are evacuated because your tour operator files for bankruptcy
- if you have started your journey from your country of residence* and suffer acute illness or injury and have to return home without having reached your destination*
- if you have started your journey from your country of residence* to a destination* that is suddenly and unexpectedly affected by conflict, terrorism or disaster and to which the Ministry of Foreign Affairs of Denmark advises against all unnecessary travel or has already recommended evacuation as a result of such events. This only applies if you are en route for less than two days, however.

Repatriation and urgent return home

The insurance only covers the cost of a replacement trip for co-insured persons travelling with you if you all return home at the same time and the persons travelling with you do not resume their journey.

Patient accompaniment

If you are entitled to a replacement trip, the insurance also covers the cost of a replacement trip for a patient companion of your choice who is not otherwise covered by the insurance [see section 10. Patient accompaniment].

The insurance covers the cost of one replacement trip per insured per travel period*.

12.2 Ruined days of travel

The insurance covers

If you are not entitled to a replacement trip under the conditions set out in section 12.1, we cover ruined days of travel if you

- are hospitalised due to acute illness* or injury
- are prescribed rest in and around your holiday accommodation by a physician due to acute illness* or injury
- cannot participate in the planned activity due to an acute bone fracture, fracture, ligament injury, strain, sprain or similar injury to joints and muscles
- have to be repatriated
- urgently need to return home
- are evacuated, however, not if the evacuation is due to your tour operator filing for bankruptcy

If you find yourself in one of the above situations, we pay compensation for

- the number of days you are hospitalised or rest under physician's orders in and around your holiday accommodation. If there is any doubt about the length of the period, it will be determined by Tryg's physician.
- the number of days by which your travel period* is shortened

The insurance covers ruined days of travel for the claimant. If the claimant is under the age of 18, we also pay compensation to any person co-insured with the claimant.

We count the travel period* as whole days and determine the number of ruined days of travel as follows:

- At the earliest from the time of the first documented physician's visit when you personally consult a physician or a physician comes to your home
- At the latest up to and including the time when you are discharged from hospital or the rest period prescribed by a physician ends

Repatriation and urgent return home

If you are repatriated or are returning home after an incident described in section 9, Urgent return home, we count the number of ruined days of travel from the time you start your journey home.

Calculation of compensation

The compensation is calculated on the basis of the cost of the trip per day per person.

13. Assault

The insurance covers

The insurance provides cover if you become a victim of violence or maltreatment by a third party resulting in demonstrable injury.

It is a condition that you report the assault to the local police and that you have been examined by a local physician, dentist or at a local hospital.

Once we have covered your claim, we also take over any claims you may have against the tortfeasor in respect of the compensation.

The insurance does not cover

The insurance does not provide cover if the damage, injury or loss

- is caused by a travel companion
- is the result of you putting yourself at risk without just cause

Compensation

The insurance covers up to DKK 650,000 per person.

The compensation is calculated on the basis of the amount of compensation that a liable tortfeasor would have to pay under Danish case law for a similar claim.

Documentation

After your return home, you must send us documentation for your report to the nearest police authority at the holiday destination, a medical report and the names of any witnesses.

14. Evacuation

The insurance covers

The insurance provides cover if

- war breaks out or there is an imminent risk of war, warlike situations, natural disasters or epidemics
- situations arise that are considered acts of terrorism or there is an imminent risk of terrorism

The insurance covers the cost of transport home to the country of residence* if the Ministry of Foreign Affairs of Denmark, the Danish Embassy or a similar institution has documented the event.

You may be evacuated

- when the Ministry of Foreign Affairs of Denmark recommends evacuation. You must follow the Ministry's instructions so that you can be evacuated at the first given opportunity.
- when the Ministry of Foreign Affairs of Denmark does not initiate evacuation. In such case, we can assess whether evacuation can take place if you do not want to remain in the area. Repatriation can be assessed and agreed when the situation has arisen in an area in which you are staying and travelling and we assess that you would be exposed to a much higher risk or much lower level of safety if you continued to stay or travel there.

The insurance also covers the cost of transport to the country of residence* if the travel operator or airline files for bankruptcy.

If Tryg Alarm is unable to provide a travel schedule for the evacuation within 12 hours after the decision has been made that evacuation is to take place, the insured may make arrangements for the journey home.

The insurance does not cover

The insurance does not provide cover when entering an area after the Ministry of Foreign Affairs of Denmark has advised against travel to that area or recommended repatriation/evacuation.

15. Search and rescue

The insurance covers

The insurance covers expenses for

- search and rescue operations within a 50 km radius from where you were last seen
- rescue operations when your location has been determined

The incident must have been reported to the local police or local authorities and the search or rescue operation must be initiated by them or the Ministry of Foreign Affairs of Denmark.

Tryg Alarm must be contacted as soon as possible if a search or rescue operation is necessary.

Tryg Alarm must approve the companies responsible for the search and scope of it.

The insurance does not cover

The insurance does not cover expenses for

- payment for search and rescue operations to organisations or public authorities that normally carry out such operations on a voluntary or no-fee basis

Compensation

The insurance covers reasonable and necessary transport expenses for evacuation to the country of residence* or to the nearest safe destination.

In case of an involuntary stay, the insurance covers reasonable and necessary expenses for hotel accommodation and meals of up to DKK 1,500 per person per day.

Compensation for transport expenses is limited to the price of an economy class ticket on an ordinary scheduled flight.

If it is not possible to leave the country immediately after it has been agreed that evacuation from the area is necessary because the local public authorities have closed the country's borders, the insurance covers transport to the nearest safe destination designated by the local public authorities and the Ministry of Foreign Affairs of Denmark.

Transport to the country of residence* will take place at the first given opportunity after it is possible to leave the country. Be aware that transport options may be limited in countries which are at war or in warlike situations, and Tryg is not liable for the extent to which transport is possible. However, in cases in which help is required, Tryg will work with the Ministry of Foreign Affairs of Denmark, the travel operator or similar entities.

If Tryg Alarm is unable to provide a travel schedule for evacuation within 12 hours after the decision has been made that evacuation is to take place, the insured may make arrangements for the journey home.

- search operations in connection with kidnapping, hostage-taking or hijacking
- search and rescue operations north of the Arctic Circle or on the South Pole or in areas where a special permit is required by local or public authorities
- search operations to find people who have disappeared while engaging in or training for professional sports* or who are on a scientific expedition
- search operations initiated by next-of-kin because you have neglected to tell them where you are or because your family or others want to make contact with you

Compensation

The insurance covers reasonable and necessary expenses of up to DKK 75,000 per person and a maximum of DKK 150,000 per incident.

The insurance has an excess* of 10% of the compensation, however, at least DKK 2,500 per incident.

Documentation

You must send us your report to a local public authority.

16. Trauma counselling

The insurance covers

The insurance covers trauma counselling when an eligible event on the trip has resulted in mental trauma as a result of

- acute illness*, injury or death
- robbery*, assault or threats
- accident, fire*, explosion or burglary
- search and rescue operations
- outbreak of war, warlike situations, terrorism, natural disasters or epidemics

The insurance does not cover

The insurance does not cover expenses for

- treatment by an unlicensed psychologist or therapist
- treatment where there is no documented need for treatment
- treatment which is refundable by public healthcare systems or other entities

Compensation

The insurance covers trauma counselling of up to DKK 1,500 per treatment session and a maximum of DKK 15,000 per person per incident.

The insurance covers reasonable and necessary expenses for

- emergency trauma counselling
- psychological treatment prescribed by a physician that you start within 30 days of the incident. Treatment should be completed within three months of the first treatment session.

Contact Tryg Alarm if urgent trauma counselling is needed.

17. Cancellation

The insurance covers

The insurance provides cover from the date on which you pay a deposit on your trip and until you leave your country of residence* to begin your trip.

Cover ends when you leave your home or your place of work to start the trip.

The insurance also covers travel or deposits paid up to 14 days before the insurance takes effect.

The insurance covers travel cancelled due to acute illness, injury or death affecting

- you
- your spouse/cohabiting partner
- children, grandchildren and children-in-law
- parents, parents' long-term cohabiting partner, in-laws and grandparents
- siblings, brothers-in-law, sisters-in-law and their children

Purpose of the trip

Calculating compensation

The compensation must, as far as possible, place you in the same financial situation as you were in immediately prior to the loss.

We may compensate you for your loss in one of the following ways:

- Repair
- Replacement
- Cash compensation

Repair

We pay the cost of repairing the damaged item to essentially the same condition* it was in prior to the damage.

Repair costs may not exceed the value of the damaged item calculated in accordance with the rules on cash compensation or replacement.

Replacement

We provide or replace items with items that have a value, quality, performance, use and appearance essentially corresponding to that of the damaged item. The make or brand of the item does not have to be the same.

We replace new items if the damaged or stolen item was

- purchased as new
- less than two years old at the time of the damage, and

If all the conditions for replacement with new items are not met, we may provide used items.

Replacement value compensation (new items)

We pay cash compensation corresponding to the price charged by the supplier designated by us if the damaged or stolen item was

- purchased as new
- less than two years old at the time of the damage, and
- otherwise undamaged

Current value compensation (used items)

If all the conditions for replacement value compensation are not met, compensation is calculated using the current value.

Theft from unlocked buildings or premises, or when a thief steals items outside a building without anyone noticing. Simple theft also includes theft from locked cars, aircraft, yachts and occupied caravans and tents.

Similar new item

Similar item is an item that has a value, quality, performance, use and appearance essentially similar to that of the item to be replaced. The make or brand of the item does not have to be the same.

Wearables

Wearables are digital devices that can be worn on the body and give the wearer access to smart features. Smartwatches and smartglasses are examples of wearables.

Essentially the same condition

Essentially the same condition means that the item will not necessarily be the same as before the damage, but that its performance, use and appearance are essentially the same as before the damage. We may for example choose to use unoriginal parts.
